

OCULUS Pentacam® Family Software Configurations

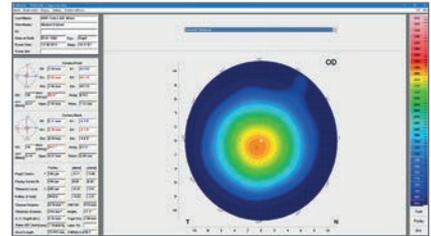

Standard Software

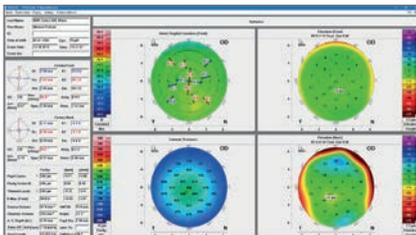

Fast Screening Report

Most relevant information based on normative data, summarized and analyzed

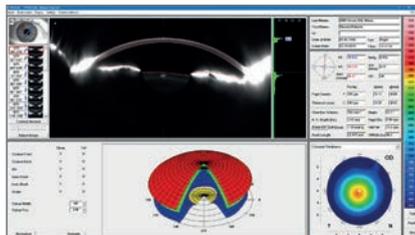

1 Large Colour Map

Detailed evaluation of every colour map

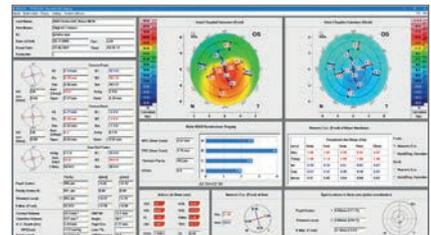

4 Maps Refractive

Anterior corneal curvature and elevation, posterior corneal elevation and corneal thickness

General Overview

Scheimpflug images, pachymetry, HWTW, keratometry, anterior chamber analysis, colour maps

Topometric / KC Staging (Belin ABCD Keratoconus Staging)

Belin ABCD keratoconus classification

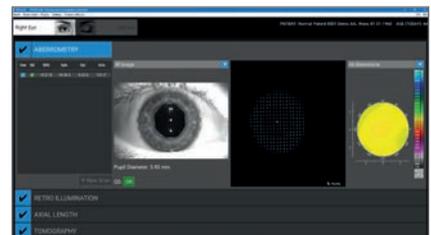

Belin ABCD Progression Display

Keratoconus progression based on the Belin ABCD KC-Staging

Compare 2 Exams Scheimpflug Images

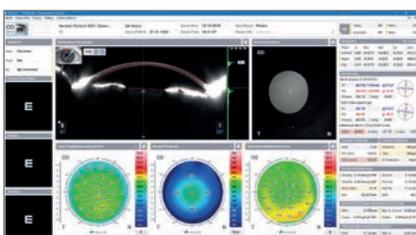

Visual representation of changes in the anterior chamber

Full Sequence Measurement

Intuitive operation thanks to guided recording mode

① ②

Full Sequence Overview

Overview for cataract refractive surgery planning

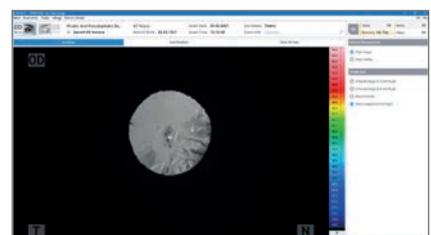

①

Aberrometry

Diverse representations of aberrations

①

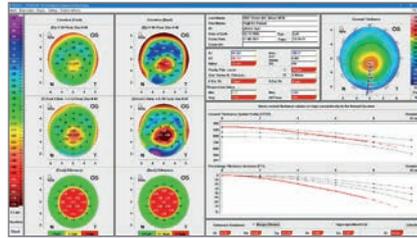

Iris/Retro Image

Visual representation of lens opacities and IOLs

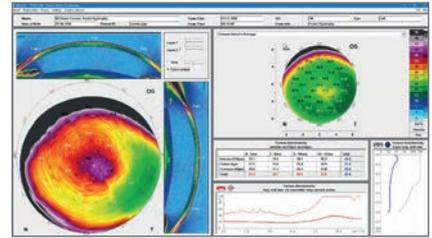

①

Screening Package

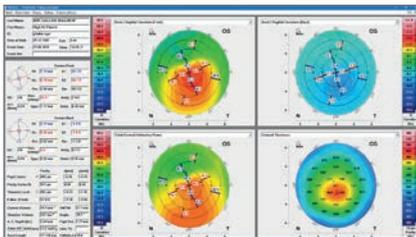

Belin/Ambrósio Enhanced Ectasia Display

Quick detection of corneal abnormalities and early detection of corneal changes

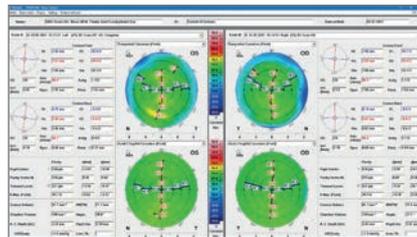

Corneal Optical Densitometry

Objective analysis of corneal optical densitometry in different layers and zones

4 Maps Selectable

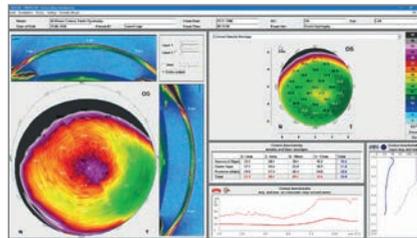

Customizable quad map for any available colour map

Show 2 Exams

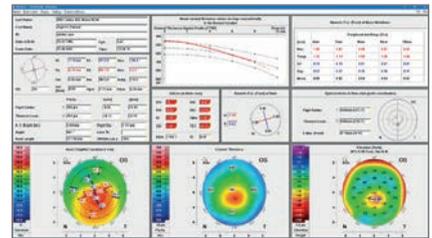

For better comparison of two examination results

Refractive Package

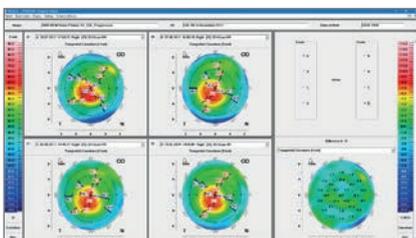

Corneal Optical Densitometry

Objective analysis of corneal optical densitometry in different layers and zones

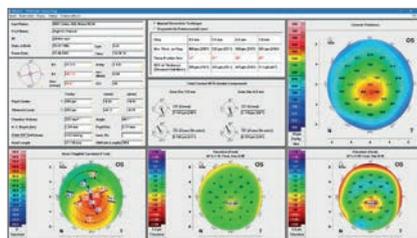

Refractive

Overview of keratometry, pachymetry and corneal thickness progression for pre-operative planning of refractive surgeries

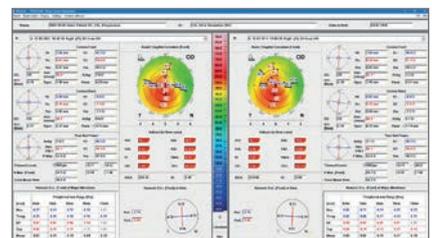

Compare 4 Exams

Objective and intuitive follow-up and documentation

Corneal Rings

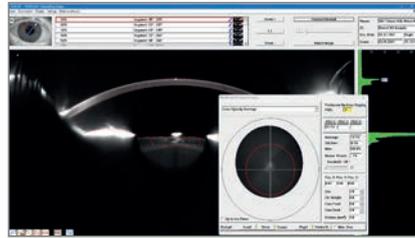

Qualitative and quantitative assessment of corneal properties for pre-operative planning of corneal ring implantation

Show 2 Exams Topometric

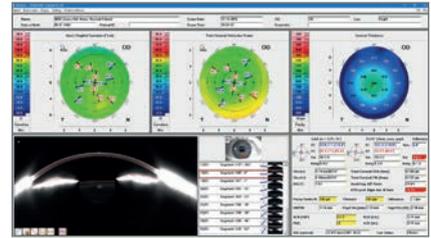

Evaluation of two examinations regarding the corneal surface properties

Cataract Package

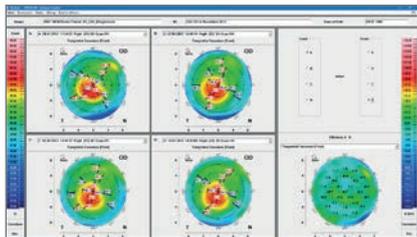

PNS and 3D Cataract Analysis

Objective quantification of lens opacities in 2D and 3D

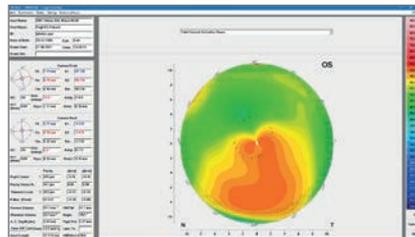

Cataract Pre-OP Display

Premium IOL selection in 4 steps

Compare 4 Exams

Visual representation and analysis of follow-up examinations

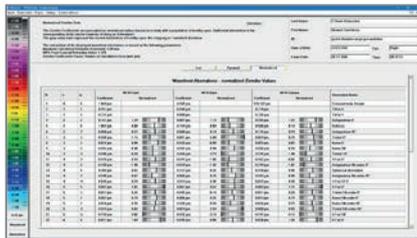

Total Corneal Refractive Power (TCRP)

Calculation of total corneal refractive power using ray tracing

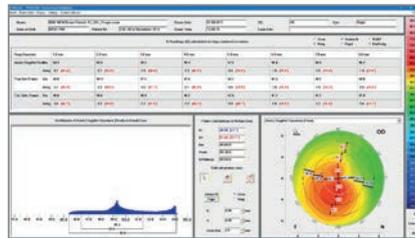

Anterior Chamber Angle at Scheimpflug Images

Chamber angles, calculated and displayed for every Scheimpflug image

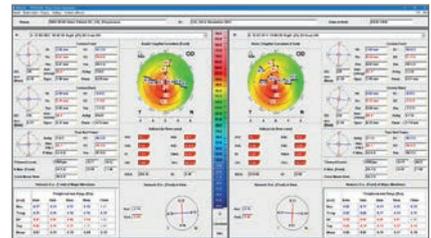

Aberrometry Cornea

Zernike Analysis and determination of lower and higher order aberrations including normative data

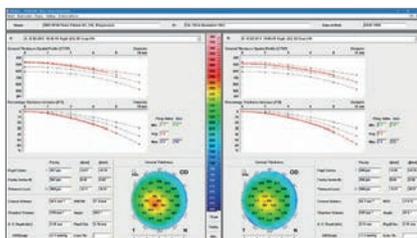

Corneal Power Distribution

Assessment of corneal power with calculation zones and rings

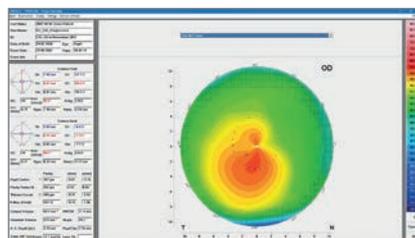

Show 2 Exams Topometric

Evaluation of two examinations regarding the corneal surface properties

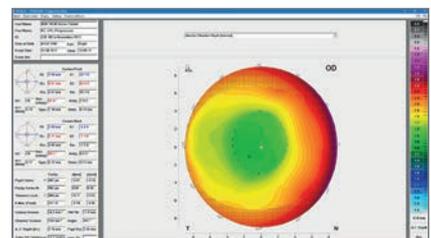

Show 2 Exams Pachymetric

Evaluation of two examinations regarding pachymetric characteristics

True Net Power (TNP)

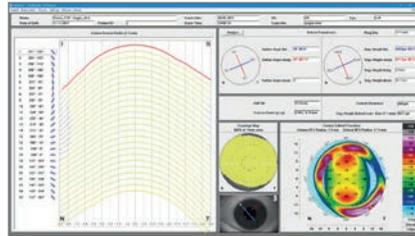

Visual representation of corneal refractive power taking into account the anterior and posterior corneal surface

Anterior Chamber Depth

Full visual representation of anterior chamber depth without corneal thickness

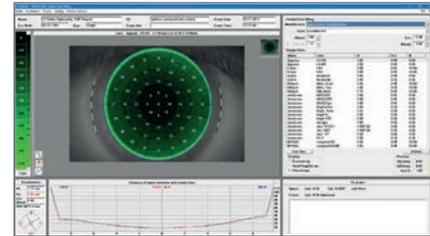

Contact Lens Fitting Package

CSP Report Pro

Topography measurement of the cornea and sclera, including sagittal height measurements; ideal for scleral lens fitting

① ②

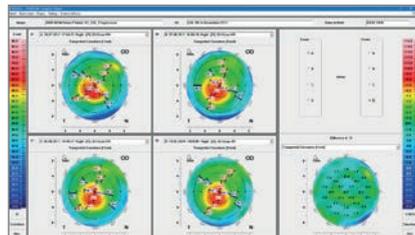

Contact Lens Fitting Software incl. Fourier Analysis

Integrated contact lens database, realistic fluorescein image simulation

Aberrometry Cornea

Wavefront data and determination of lower and higher order aberrations, including normative data

Compare 4 Exams

Objective and intuitive follow-up and documentation

Myopia Package

Growth Curves

Patient data, compared with normative data in cooperation with BHVI

①

Myopia Guide

Risk assessment of myopia progression not only based on measurement data and environmental conditions

①

Growth Control

Monitoring the changes in eye growth as well as treatment successes

①

GRAS Module

Gullstrand Refractive Analysis System, compares individual optical components with the age-adjusted Gullstrand eye

①

Single Licenses

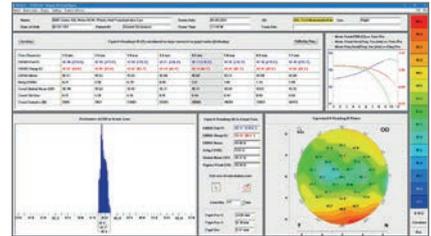

not part of any package

IOL Calculator

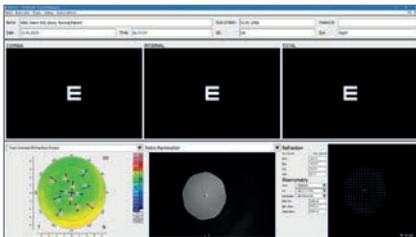

IOL calculation for virgin and treated eyes

③

Holladay Report / Holladay EKR Detail Report

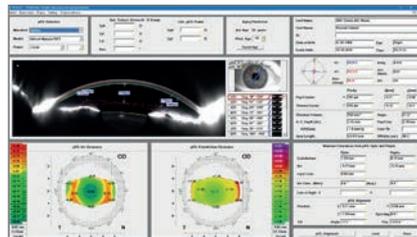

Intuitive overview showing six corneal maps and detailed analysis of corneal refractive power

Visual Performance

Quantitative visualisation of the refractive properties of the cornea, lens and the entire eye

①

3D pIOL Simulation and Aging Prediction

Preoperative planning of iris-fixed phakic IOLs

③
